New Business:

The committee discussed the streets needing crack sealant. The main area of focus will be Garfield St. in front of the school. Manager Nykaza has spoken to a contractor who recommends waiting until school is out for the summer to perform this work. Nykaza will schedule a meeting with Aaron Full of Willett Hofmann to discuss crack sealant work and an MFT project for this year. The committee discussed finalizing the street inventory map to plan road paving projects for the next 5-10 years. Nykaza will reach out to Clinton Twp Road Dist. Comm. Scott Hunt to discuss the villages upcoming and future planned projects and to discuss uses for Road and Bridge funds. Committee discussed spring sidewalk repair/replacement work.

The committee discussed restricted parking in Green Ridge that is already in the village code. Discussion ensued regarding how the parking restriction will affect the residents of Green Ridge. It was decided to reevaluate the parking situation once Ryan Homes has completed building in Green Ridge. Parking restrictions on all curbed streets in the village were discussed. Issues with residents parking on curbed streets after 2" of snow was discussed. The committee wants to see stricter enforcement by the WPD.

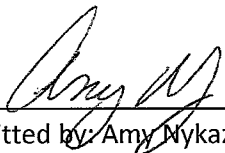

Nykaza will work with Public Works for inventory and replacement of faded, missing or damaged street signs throughout the village.

The streetlight at Garfield and Cherry has been damaged by a contractor, but the village is unsure who damaged it. It underground wires were damaged. It was recommended Nykaza investigate j.u.l.i.e. tickets to see who damaged them. The village will contact Turner Electric to set up a repair on this light. The village will add marking streetlights to our list of j.u.l.i.e. markings. Additional lighting on the curve at Garfield and Walnut was discussed.
